

Indiana Department of Education End-of-Course Assessments

To: Corporation Test Coordinators
From: Michele Walker, Director of Student Assessment
Re: Test Scout & Workstation Readiness Program for ECAs

****CORRECTED EMAIL – The email sent yesterday, November 24, with the same subject line “Test Scout & Workstation Readiness Program for ECAs” was sent in error. Below is the correct email text. Please disregard the email dated November 24.****

An email has been sent to each School Test Coordinator (STC) you assigned during the ECA CTC Registration about the Test Scout & Workstation Readiness program used for the End-of-Course Assessments.

We want to make you aware of a significant change in our testing platform for the 2008-2009 school year. We will be using a new student testing application, iTester™, to administer the ECAs. This new product will need to be **installed on all workstations** being used by students for End-of-Course Assessments. The Test Scout & Workstation Readiness website will provide schools with tools to verify the student workstations meet the minimum requirements and will also provide a link to download this application.

As the CTC, please be sure to make contact with your STCs to ensure they received this communication **and** are taking the necessary steps to ensure all student workstations being used for the ECAs have iTester™ installed on them.

If you find the STC has not received the email or if you have any questions about this process, please contact ECA Support via e-mail at ECASupport@QuestarAI.com or by phone at 1-877-424-0322.
